## Mausoleum

The mausoleum offers elegant and peaceful cremation niches and full body above ground entombment as a final resting place. Crypt selection is an excellent option to accompany your pre-need funeral arrangements. Mausoleum entombment provides a clean, dry, above-ground burial.

The mausoleum also has a chapel for memorial services and for people to pray, reflect and pay their respects to those they love.

The chapel offers a comforting setting with lots of natural light.

## Pre-Need Services A Loving Decision

Woodland Cemetery has been helping Greene County area families deal with grief and loss for generations. The loss of a loved one is one of the hardest times anyone has to face. Facing this difficult issue and planning ahead can spare those left behind significant emotional and financial burdens. Making plans regarding the final resting place of those you love after they have passed away can be overwhelming. That's why pre-need services are so important.

With pre-need services, you choose exactly how you want to be remembered. You choose your final resting place. That way, when the time comes, family members don't have to be concerned about what their loved ones would have wanted; they know because it was arranged in advance.

Family members have shared, that following the loss of a loved one, they were so grateful that their families made decisions in advance. Pre-need services allow loved ones to spend more time with family and friends during the grieving process. Not having to deal with cemetery arrangements, lets survivors focus on the wonderful memories they have of their loved one's life and feel comfort from those around them as they grieve for their loss.
